

Hi Year 3 Families,

Below is time-table and instructions for the week starting Monday March 30th. Of course, this is just a suggested timetable. You might start and finish earlier, spend longer on some tasks, choose to do PE at other times, etc.

Please read through all the important information and let me know if you have any questions at all.

Important information

- Remember that reading, exploring outside, cooking, baking, art and craft all hold value and are great things to do while at home too.
- This timetable and the suggested activities are to help you. This work is not compulsory so please don't panic if something isn't working.
- Children this age can focus for 15-25 minutes at a time. While I might suggest 45 minutes for Maths or English, this would need to be broken up with a quick chat, stretch of the legs, drink of water, etc.
- On White Rose Maths, you will find the lessons in the 'Home Learning' section. If you don't have a printer, try accessing the worksheets on an iPad where you might be able to draw over them (so they can circle answers, colour in fractions, etc.).
- If needed, your child could complete a Year 2 or Year 4 lesson instead.
